

# TABOR KARTING SPECIALISTS

## Are you 8 to 11 Years Old?

### THINKING OF RACING IN THE NEW (TO ENGLAND) CADET CLASS?

## Then Show This To Your Dad!

Dear Dad (and Mum),

Would you risk your money on an unknown quantity? In Italy, the home of karting, the Cadet class is NOT new! All the problems have been ironed out and one make of kart has literally dominated the grids. The DAP Cadet has been tried, tested, developed and proved to be the best. Quality and safety have not been sacrificed for cost! Many parts used on the Cadet are the same as those on the European Championship winning DAP Greyhound and DAP SL including the braking system. Check to see how many other Cadet kart manufacturers can make that claim.

We can now offer you this very same racing outfit fully assembled, complete with Vega tyres, Comer S60 engine and ready to race for £670 + VAT. To back up this offer is the knowledge that in our stores we have a comprehensive range of DAP and Comer spares, plus the experience gained in running these motors over the past 12 months in the demanding world of hire karts. As the importer of this DAP Cadet kart we can supply complete outfits to any part of the country within 3 days via Federal Express, and spares within 24 hours via Securicor. Now that you have the choice would you select anything but the best!

**STOP PRESS! Racesuits in Cadet size!!!**

Now available from the fabulous range of Victory Racewear the C.I.K. approved karting suit in Cadet size. Colours: Red; Blue; Dark Grey. Price £49 incl. P&P.
