

LATEST FROM RED DRAGON

▲ For kart manufacturers special steel bearing hangers (A) which enable the three different types of bearing clamps to be used (1, 2, 3) without needing modification to hangers. They all slot into the illustrated hanger.

◀ Latest Hutless 28mm tube chassis, chrome-molybdenum, three bearing rear axle, mono alloy wheels and World Championship winning mechanical brake. Suitable for 100 National, with different specification for Britain. As illustrated £420 + VAT assembled.

New to karting. Fully self aligning bearing and carrier which can be split to enable axle to lift upwards. Self-aligning bearing available in 30mm & 35mm form special locking collar needed. This is a counter measure to sticking axle bearing and especially suitable for tracks with 'rapid' curves. Claimed to be far better than normal axle location systems.

RYE HOUSE continued

gan romped home yet again an easy victor with Beasley and Hart taking the remaining trophies.

The Club are indebted to the following for donating prizes for the overall series, Mark Steeds — Turbo Visors, Mark Burgess — Subscription to Karting magazine, Neil Hann — Kart covers, Dave Banbury — Various components, IAME — 2 Parilla engines. Alan Turney — Arrow engine, EME Ltd — 2 engines, Lotus Cars — Factory visits, and at time of writing, Vega — sets of tyres (although this is subject to confirmation). Other gifts are being sought. Programme advertising to all who donate, please contact the writer.

The trophies for race day were presented by 'Tina', friend of prize winner Martin Fenner.

A. G. Kilbey
