

RAIDERS R1 & R3

The Choice of Champions

Computer-aided technology, skilful hand manufacturing and 40 years race track expertise has developed the latest breed of TKM karts ready to race and win in the toughest of all UK classes, Formula TKM.

Tal-Ko use only the best engineering. High tech computer driven machining, skilled bending and forming of metals, and unique super-accurate jigs make for karts which look good, last well and out-perform the others.

Raider means a kart which handles well and finds the

edge on the competition. It assures the comfort of a top quality product, designed and made to win. And should you need a spare part or accident repair then there's a full back-up service at prices you can afford.

Raider R1 and R3 share many elements – but with a few key differences. Either way both have a wealth of advantages.

Chassis High spec CD tubes, craftsman welded in unique jigs for superb accuracy. High gloss powder coat finish

Stub Axles Front ride-height adjustment with precision machined king-pin bolts, reamed stub axle yokes and four bearings per stub for tremendous strength and accuracy

Axle 30mm solid or hollow rear axle (optional). CNC machined gold anodised components throughout for maximum strength and panache

Wheelbase 1045mm

Fuel Tank Quick release 8 litre non surge design

Pedals

Variable position pedals and steering to suit all size drivers.

Extra leg room for tall drivers. Brake pedal has multi rod positions

Brake High power rod-operated brake system with 4-pot calliper, easy pad adjustment, steel braided plastic covered hose and choice of 3 grades of pads. Cast iron ground disc 8mm x 208mm

Weight*

R1 – 42.5 kg

R3 – 43.0 kg

*Including wheels, seat, bodywork & hollow axle

Tube Sizes

30/32mm

32/30mm

Classes Formula TKM 2/4 stroke

Simply the Best
